

Site plans of the state capital Stuttgart / Stadtmessungsamt for public filming permission

Note:

For public filming permits on traffic areas of the city of Stuttgart, exact details of the filming location with a sketch of the site plan are required. For this purpose, the Office of Public Order requests that the desired closures, stopping bans, etc. be drawn on site plans with an exact scale, which can be obtained from the City Surveyor's Office. For preliminary information, we recommend viewing the Stuttgart city map at: www.stuttgart.de/stadtplan (also aerial photos and house number-specific location search).
